Central California Alliance

The Grant and Awards Committee of Central California Alliance is actively seeking project proposals for our annual grants. We are looking to support projects which promote positive change, equal rights, access and opportunity for the LGBT+ community.

In previous years, grants have been given to organizations to buy books for libraries, provide social events for youth, present educational forums and public health projects and to underwrite basic organizational operating costs. Awards are generally in the neighborhood of \$300 to \$800.

Attached is a brief project proposal form. Please complete the form thoroughly, but concisely, and include any supporting documentation which you feel would strengthen your application request. **Proposals must be postmarked no later than November 30th.** Grant recipients will be announced in December and awarded at the Annual CCA Talent Show held at Roger Rocka's in January.

Sincerely,

Beverly Senkowski
